End Application:

Hydraulic console

Body Material:

Aluminum alloy

Special Features:

Part number breakdown: s570=basic code; n=seals, nitrile; h=din43650, coil termination; 110=voltage; max. Pressure: 210 ba (3000 psi); flow (@deltap=5 bar/70psi); 22 litres/min (5.8gpm); temperature: -20 to +120 degrees c(-4 to +248 degrees f) ; recommended filtration: 25 microns min.; fluid: hydraulic fluids; mounting position: unrestricted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
