Mounting Facility:

Bracket

Opening Pressure Setting:

29.0 pounds per square inch

Product Name:

Pilot controlled check valve, subplate mounting

Special Features:

Next higher assembly: 3040-01-518-2457, cylinder assembly or luff cylinder used on lake shore crane boom

Media For Which Designed:

Hydraulic fluid, petroleum base single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
