Flow Control Device:

Poppet

Disk Loading Method:

Spring

End Application:

F-15 aircraft support equipment

Connection Style:

Flared (tube) all ends

Valve Operation Method:

Automatic

Connection Type:

Threaded external tube all ends

Seat Angle:

37.0 degrees all ends

Opening Pressure Setting:

40.0 pounds per square inch

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
