Body Material:

Plastic, tetrafluoroethylene

Body Style:

Straight thru

Face To Face Distance:

2.000 inches

End Application:

Injector system

Temperature Rating:

200.0 degrees fahrenheit

Valve Size:

2.000 inches

Product Name:

Valve, metering

Special Features:

75 psi max; 1.8 l per min. Of water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
