**Body Material:**

Plastic, tetrafluoroethylene

**Body Style:**

Straight thru

**Face To Face Distance:**

2.000 inches

**End Application:**

Injector system

**Temperature Rating:**

200.0 degrees fahrenheit

**Valve Size:**

2.000 inches

**Product Name:**

Valve, metering

**Special Features:**

75 psi max; 1.8 l per min. Of water

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A21100
