**Body Material:**

Steel, corrosion resisting

**Body Style:**

Straight thru

**Media For Which Designed:**

Gas and liquid, noncorrosive

**First End Connection Type:**

Threaded internal pipe

**First End Thread Size And Series/type Designator:**

1/4 nptf

**Second End Relationship With First End:**

Identical

**Seat Material:**

Steel, corrosion resisting

**Face To Face Distance:**

2.120 inches

**Flow Control Device:**

Diaphragm

**End Connection Quantity:**

2

**Mounting Facility:**

Panel

**Outlet Pressure Range:**

+0.0/+250.0 pounds per square inch

**Maximum Inlet Pressure Rating:**

3000.0 pounds per square inch

**Filter:**

Not included

**End Application:**

Wash and spray equipment

**Temperature Rating:**

650.0 degrees fahrenheit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A21100
