Body Material:

Steel, corrosion resisting

Body Style:

Straight thru

Media For Which Designed:

Gas and liquid, noncorrosive

First End Connection Type:

Threaded internal pipe

First End Thread Size And Series/type Designator:

1/4 nptf

Second End Relationship With First End:

Identical

Seat Material:

Steel, corrosion resisting

Face To Face Distance:

2.120 inches

Flow Control Device:

Diaphragm

End Connection Quantity:

2

Mounting Facility:

Panel

Outlet Pressure Range:

+0.0/+250.0 pounds per square inch

Maximum Inlet Pressure Rating:

3000.0 pounds per square inch

Filter:

Not included

End Application:

Wash and spray equipment

Tempurature Rating:

650.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
