**End Application:**

Reverse osmosis water purification unit, model r0dm-3, 30, 000 gal per day capacity

**Valve Operation Method:**

Manual

**Connection Type:**

Unthreaded internal pipe 3rd end

**Product Name:**

Diverter ball valve, series d84

**Special Features:**

Bottom end connection is threaded, left and right connections are socket weld

**Material:**

Stainless steel body

**Style Designator:**

Err-090

**Furnished Items And Quantity:**

1 handle

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A046b0
