End Application:

Reverse osmosis water purification unit, model r0dm-3, 30, 000 gal per day capacity

Valve Operation Method:

Manual

Connection Type:

Unthreaded internal pipe 3rd end

Product Name:

Diverter ball valve, series d84

Special Features:

Bottom end connection is threaded, left and right connections are socket weld

Material:

Stainless steel body

Style Designator:

Err-090

Furnished Items And Quantity:

1 handle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
