End Application:
Reverse osmosis water purification unit, model r0dm-3, 30, 000 gal per day capacity
Valve Operation Method:
Manual
Connection Type:
Unthreaded internal pipe 3rd end
Product Name:
Diverter ball valve, series d84
Special Features:
Bottom end connection is threaded, left and right connections are socket weld
Material:
Stainless steel body
Style Designator:
Err-090
Furnished Items And Quantity:
1 handle
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
