End Connection Quantity:

1

Valve Discharge Flow Rate:

32.0 gallons per minute

End Application:

Crane, elec/hydraulic, 24, 000 lbs.

Valve Operation Method:

Pilot

Connection Type:

Threaded cartridge

Adjustable Pressure Range:

+725.0/+5000.0 pounds per square inch

Product Name:

Load control valve; cartridge w/manifold

Pilot Ratio:

3: 1

Special Features:

Valve has pilot open function on main poppet, relief function and free reverse flow function; adjustment screw, line body cavi type 3c; threads are sae

Material:

Rubber butadiene-acrylonitrile class nbr seal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A525w0
