Body Material:

Steel, corrosion resisting

First End Connection Type:

Threaded external tube

First End Style Designator:

Flared

First End Outside Diameter Tube Accommodated:

0.375 inches

Second End Relationship With First End:

Identical

End Connection Quantity:

2

Valve Discharge Flow Rate:

4.2 imperial gallons per minute

End Application:

Am-6900 / spy-1a cg47t58, amplifier, radio freq

Product Name:

Flow regulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
