Overall Length:

10.000 inches

End Application:

20141 (nozzle) relief valve, angle

Largest Outside Diameter:

1.250 inches

Valve Type For Which Designed:

Relief

Features Provided:

Lower stem and grooved and threaded

Valve Size For Which Designed:

6.000 inches

Stem Actuating End Type:

Threaded externally

Valve Model Number For Which Designed:

6 x r x 8 nozzle safety relief valve

Special Features:

Threads for disk holder are 1-3/16-16 unf-2a; threads at actuating end are 1-3/8-12 unf-1a

Material:

Stainless steel

Material Specification:

Astm a479 type 304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503z0
