End Application:

P/n 5793295 nose assembly

Product Name:

Vent valve fbs (freeboard ballast system)

Special Features:

Valve has 3 ports: inlet/outlet iaw ms33649-16 1.00 t.S.; actuating port iaw ms33649-4 .25 t.S.; pilot valve with proximity swith and open indicator iaw northrop grumman 3a05328 with external electrical connector p/n ming3 (no. 16)-cdrl (ti) with length of 12" on pigtail, terminated with a seacon connector; media: seawater, maximum psi 225, max. Differential across inlet/outlet up to 20 psid, pneumatic air pressure varies from 1500-4500 psig, operating with air pressure as low as 100 psig; end connections: butt weld. Pilot valve eseod shall be .90 nom. 0.85 min., 1.03 orifice

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
