Body Material:

Aluminum alloy

Body Style:

Straight thru

Media For Which Designed:

Air

First End Connection Type:

Threaded external tube

Face To Face Distance:

2.170 inches

End Connection Quantity:

2

Maximum Inlet Pressure Rating:

115.0 pounds per square inch

Temperature Rating:

Between -65.0 degrees fahrenheit and 203.0 degrees fahrenheit

Product Name:

Valve, shutoff, thermally actuated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
