**End Application:**

2320-01-474-7606

**Valve Operation Method:**

Automatic

**Material:**

Steel

**Supplementary Features:**

9permits free flow in one direction and dependable shut off in the reverse direction; when pressure going through the valve is increased to the craking level, the valve opens; when the pressure is reduced to below the cracking level, the valve closes

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A530b0
