End Application:

2320-01-474-7606

Valve Operation Method:

Automatic

Material:

Steel

Supplementary Features:

9permits free flow in one direction and dependable shut off in the reverse direction; when pressure going through the valve is increased to the craking level, the valve opens; when the pressure is reduced to below the cracking level, the valve closes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
