Body Material:

Any acceptable

Furnished Items:

Gasket

End Application:

Aircraft, orion p-3

Product Name:

Valve, temperature regulating and pressure-relief

Special Features:

Fvalve is to reach seating length between 115 degree f and 120 degree f; proof pressure 450 psi; burst pressure 750 psi; maximum operating temperature 275 degree f; aluminum gasket; 200 min piston stroke

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
