End Application:

New construction lcs1 and other

Tempurature Rating:

366.0 degrees fahrenheit

Pressure Rating:

150.0 pounds per square inch

Special Features:

Assembly of disc holder, disk and disc nut; disc holder material: bronze astm b62; disc nut materials: bronze astm b62/astm b98, alloy c65100 with ss washer

Material:

Plastic polytetrafluoroethylene

Material Specification:

Tfe national specification single material response

Media For Which Designed:

Steam

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
