Flow Control Device:

Ball

End Application:

New construction lcs1

Valve Operation Method:

Automatic

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Valve Size:

2.500 inches

Face To Face Distance:

8.250 inches

Flange Face Design:

Plain all ends

Product Name:

In line vent valve

Special Features:

40 mesh flame screen included.

Material:

Copper alloy body

Style Designator:

Straight through flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
