Body Material:

Aluminum

Media For Which Designed:

Air

Flow Control Device:

Diaphragm

Outlet Pressure Range:

+10.0/+250.0 pounds per square inch

Maximum Inlet Pressure Rating:

300.0 pounds per square inch

Temperature Rating:

Between 0.0 degrees fahrenheit and 175.0 degrees fahrenheit

Special Features:

Pressure relieving regulator; high flow unit with large valve and diaphragm; ptf threaded; t-bar adjustment; includes gauge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
