Flow Control Device:

Ball

End Application:

New construction lcs1

Valve Operation Method:

Automatic

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Valve Size:

2.000 inches

Flange Face Design:

Plain all ends

Product Name:

Inline valve with side opening

Special Features:

Side opening, bolted with neoprene gasket

Material:

Stainless steel seat

Style Designator:

Straight through flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
