Flow Control Device:

Disk

Maximum Operating Temp:

140.0 degrees fahrenheit single response

Minimum Operating Temp:

-40.0 degrees fahrenheit

End Application:

Ground refueling equipment

Valve Operation Method:

Automatic

Flange Shape:

Round all ends

Connection Type:

Flange all ends

Mounting Position:

Horizontal

Outside Diameter:

8.750 inches all ends

Thickness:

3.000 inches all ends

Flange Face Design:

Plain all ends

Product Name:

Wafer swing check valve

Material:

Iron cast body

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
