End Application:

Model a-5 304 sts tubular gage valve set w/socket weld vessel connection; cvn reactor boundry area

Valve Type For Which Designed:

Gate

Material:

Steel comp 304

Material Specification:

Qq-s-763 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503z0
