End Connection Quantity:

1

Valve Discharge Flow Rate:

15.0 gallons per minute

End Application:

Assy beach module ramp; inls

Err Default:

Err default

Valve Operation Method:

Automatic

Connection Type:

Threaded external pipe

Product Name:

Logic element, normally open, direct operated

Flow Pattern Quantity:

3

Special Features:

Cartridge type valve with 4 ports, poppet; operating pressure 5,000 (port 1 and 2), pilot pressure to shift valve: 400 psi; seal material: buna-n; non-adjustable control pressure 200 psi, valve opens when pilot pressure falls below 145 psi; used on manifold p/n f072623

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
