Flange Diameter:

6.125 inches

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Bolt Hole Quantity:

6

Valve Operation Method:

Manual

Connection Type:

Flange, round w/holes

Valve Size:

2.500 inches

Stem Type:

Rising

Face To Face Distance:

6.000 inches

Flange Face Design:

Plain

Product Name:

Gate valve, bronze flanged, 250 psi wog

Inlet Relationship With Outlet:

Identical

Special Features:

Wear coated, drilled with sealing compound; asbestos free

Material:

Copper alloy body

Material Specification:

Astm b61 assn standard single material response body

Furnished Items And Quantity:

1 handwheel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500a0
