| Valve Discharge Flow Rate:           |
|--------------------------------------|
| 10.0 gallons per minute              |
| Product Name:                        |
| Servo valve                          |
| Special Features:                    |
| Porm 40 ma signal; 4500 psi pressure |
| Shelf Life:                          |
| N/a                                  |
| Unit Of Measure:                     |
|                                      |
| Demilitarization:                    |
| No                                   |
| Fiig:                                |
