Overall Length:

5.220 inches

End Application:

Manifold, hydraulic; seawolf class ssn 23; moog valve subplate

Largest Outside Diameter:

2.115 inches

Material:

Copper alloy uns c63200

Material Specification:

Astm b150, tem-t055 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503z0
