End Application:

4820-01-561-1771 regulating valve; new construction lcs1

Product Name:

Bellows assembly

Special Features:

Assembly includes refrigerent connection 36 inch long capillary tube with 1/4-inch sae flange nut connection; temperature range 90-140 degrees f, set temp 120 deg; application: salt water cooling/11kw hydraulic power unit

Material:

Nickel alloy and copper alloy

Type/model Designation:

Model 203

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
