**End Application:**

CVNR-EA-CTO-RBOU

**Valve Operation Method:**

Automatic or manual

**Product Name:**

Electronic pressure relief control

**Special Features:**

Pressure relief control is normally closed control that responds to main valve inlet pressure changes; equipped with two-way motor actuator for remote adjustment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A046b0
