

View Online at <https://aerobasegroup.com/nsn/4820-01-565-0643>

Pressure Rating:

5000.0 pounds per square inch

Voltage In Volts And Current Type:

24.0 dc

Special Features:

26gpm flow at 1000 psi, 10gpm flow at 150 psi; fluorocarbon seal; 7-pin electrical connector; porm 10vdc input command; driven by a permanent magnet linear force motor; pressure indepenent dynamic performance; low hysteresis and threshold; standardized spool position monitoring signal with low residual ripple; electric closed loop spool posiiton control; null adjustment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
