End Application:

4820-01-262-5643 valve, check

Pressure Rating:

400.0 pounds per square inch

Material:

Nickel alloy

Material Specification:

Astm a494 gr -30c assn standard single material response or qq-n-281 federal specification single material response or astm b164 assn standard single material response

Media For Which Designed:

Air or oil or steam or water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A539y0
