Maximum Operating Temp:

65.0 degrees fahrenheit 1st response

End Application:

Valve, restrictor, check

Valve Operation Method:

Automatic

Maximum Operating Pressure:

3000.0 pounds per square inch 1st response

Product Name:

Valve, restrictor, two way, filtered

Special Features:

Hydraulic fluid per dms 2014, type 3; filtration: .008 to .012; when completely contaminated, filter will not collapse totally at 3000 psid; total length is 3.297 inches; width is measured by the hex nut .813; .49 gpm at 650 psi, 1.34 gpm at 3000 psi

Special Test Features:

Heat treated to 145, 000 psi min ult t.S.; test specification: 412f

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
