Mounting Facility:

External thread

Remote Actuation Method:

Spool

Product Name:

Proportional pressure control valve

Special Features:

Max operating pressure 5075 psi; pressure differential 14.5 psi; mounting position nfpd d03 cetop 3; pilot oil is internal; seal is fluorocarbon; 46 in by 60 in; mounting screws bk403 (4x5x90); 2-way pressure compensators are sandwich valves designed for stacking beneath a proportional directional control valve with a standardized mounting pattern; flow rate regulation is automatically effective in the port with the highest pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
