**Body Material:**

Steel, corrosion resisting

**Media For Which Designed:**

Liquid, noncorrosive

**Flow Control Device:**

Ball

**End Connection Quantity:**

2

**Regulation Type:**

1st stage manual, 2nd stage automatic

**Maximum Inlet Pressure Rating:**

500.0 pounds per square inch

**Outlet Pressure Accuracy Rating:**

460.0 pounds per square inch

**Filter:**

Not included

**End Application:**

0000-01-lg9-7559; valve, pressure relief; p/n 002-k03-mg0040

**Product Name:**

Valve, pressure relief 3 in

**Special Features:**

Cms data id 1888, pccn se0277, plisn a001; valve, pressure relief 3 in

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A21100
