Body Material:

Steel, corrosion resisting

Media For Which Designed:

Liquid, noncorrosive

Flow Control Device:

Ball

End Connection Quantity:

2

Regulation Type:

1st stage manual, 2nd stage automatic

Maximum Inlet Pressure Rating:

500.0 pounds per square inch

Outlet Pressure Accuracy Rating:

460.0 pounds per square inch

Filter:

Not included

End Application:

0000-01-1g9-7559; valve, pressure relief; p/n 002-k03-mg0040

Product Name:

Valve, pressure relief 3 in

Special Features:

Cms data id 1888, pccn se0277, plisn a001; valve, pressure relief 3 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
