Flow Control Device:

Piston

Connection Style:

G9 plain, optional en (pipe) 2nd end

Connection Type:

Threaded internal pipe 1st end

Product Name:

Refreigerent pressure-relief valve

Special Features:

3/4 in bottom inlet x 1 in side outlet fpt connections; 427 scfm air capacity; r-series have green installation date tags

Material:

Stainless steel stem

Media For Which Designed:

Ammonia, gaseous single response

Style Designator:

C1 angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
