Thread Direction:

Right-hand all ends

Maximum Operating Temp:

450.0 degrees fahrenheit single response

Minimum Operating Temp:

0.0 degrees fahrenheit

Valve Operation Method:

Manual

Connection Type:

Threaded internal pipe all ends

Valve Size:

2.000 inches

Thread Size:

2.000 inches all ends

Special Features:

Unrestricted flow, full port, lever handle operated, end to end length: 5.250 inches, glass-filled ptfe seat, ptfe seals, may be used on water, oil, gas or steam

Material:

Stainless steel body

Thread Series Designator:

Npt all ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
