End Application:

Astute

Valve Size For Which Designed:

12.0 millimeters

Product Name:

6n series needle valve

Stem Actuating End Type:

Knob

Special Features:

Knob is black phenolic; knob diameter 1.88 in.; distance from top of knob to valve center line is 4.21 inches in the open position; the 6n series valves can be equipped with pneumatic actuators in normally closed, normally open, and double-acting models

Material:

Nickel alloy 400

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500r0
