End Connection Quantity:

2

Valve Size:

0.10 inches

Body Material:

Aluminum

Pressure Class:

3000.0 pounds per square inch

Special Features:

Flow range type 40 with free reverse flow; temperature range minus 40 to plus 248 degrees fahrenheit; all general purpose hydraulic fluids such as mil-h-5606, sae 10 and sae 20 are acceptable for use; filtration-iso 4406, class 18/16/13 or cleaner; has vitron seal kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A502c0
