Body Material:

Steel, corrosion resisting

Body Style:

Drop-in cartridge

Media For Which Designed:

Hydraulic oil

Flow Control Device:

Plug

End Connection Quantity:

2

Renewable Seat Ring Type:

Threaded

Mounting Facility:

Panel

Regulation Type:

Automatic double stage

Valve Loading Method:

Weight

Maximum Inlet Pressure Rating:

5.0 pounds per square inch

Outlet Pressure Accuracy Rating:

4.5 kilograms per square centimeter

Filter:

Not included

End Application:

4320-01-483-1054

Product Name:

Panel mount pressure sensor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
