Bleed valve assembly Special Features: Material construction anodized aluminum, brass, seal material buna-n, delrin Material: Copper alloy flow control device Style Designator:
Special Features: Material construction anodized aluminum, brass, seal material buna-n, delrin Material: Copper alloy flow control device Style Designator:
Material construction anodized aluminum, brass, seal material buna-n, delrin Material: Copper alloy flow control device Style Designator:
Material: Copper alloy flow control device Style Designator:
Copper alloy flow control device Style Designator:
Style Designator:
C4 straight thru
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A046b0
