Flow Control Device:

Poppet

End Application:

Shadow-tactical unmanned aircraft system

Valve Operation Method:

Automatic

Connection Type:

Threaded internal pipe all ends

Valve Size:

0.50 inches

Maximum Operating Pressure:

5000.0 pounds per square inch 1st response

Material:

Steel body

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
