Body Material:

Steel, corrosion resisting, qq-s-763, class 302, 303, 304, 305, 310, or 316

Media For Which Designed:

Water

Valve Discharge Flow Rate:

4.0 gallons per minute

Mounting Facility:

Internal thread

Temperature Rating:

225.0 degrees fahrenheit

Valve Size:

0.5 inches

Product Name:

Mesurflo balancing valve

Special Features:

Size: 5" l, 2.5" h; mesurflo control effective from 2 to 80 psid; hydrostatic test pressure 450 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
