Thread Direction:

Right-hand all ends

Flow Control Device:

Disk

Disk Loading Method:

Spring

Maximum Operating Temp:

470.0 degrees fahrenheit single response

Minimum Operating Temp:

37.0 degrees fahrenheit

Connection Style:

Plain, optional end (pipe) all ends

Valve Operation Method:

Automatic

Connection Type:

Threaded internal pipe all ends

Valve Size:

1.25 inches

Face To Face Distance:

3.87 inches

Product Name:

Inline check

Material:

Stainless steel body

Material Specification:

Astm a351 cf8m assn standard single material response seat

Thread Series Designator:

Npt all ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
