Body Material:

Steel, corrosion resisting, qq-s-763, class 302, 303, 304, 305, 310, or 316

Maximum Inlet Pressure Rating:

10000.0 pounds per square inch

Filter:

Included

End Application:

Valve regulating fluid pressure

Product Name:

Regulators pressure reducing

Special Features:

Inlet and outle port type high pressure, port size 6-3/8" nptf only, stainless steel 10, 000psig/690bar, design proof pressure 150% maximum rated, leakage bubble tight, operating temp -40deg fahrenheit to 165deg fahrenheit,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
