Overall Length:

4.49 inches

Product Name:

2-way poppet valve

Special Features:

Capacity: 10 gpm, operating pressure: 5000 psi, response time: 50 ms, valve leakage @ 110 sus (24cst): 10 drops/min@5000 psi, switching frequency: 15000 cycles/hr, manual override force requirement: 5 lbs/1000 psi @ port 1, manual override stroke: .10", solenoid tube diameter: .75", valve hex size: 7/8", valve installation torque: 30-35 lbf ft, model weight: 0.87 lb.

Style Designator:

Stepped-tapered shank end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T267-e
