**Body Material:**

Steel, corrosion resisting, qq-s-763, class 302, 303, 304, 305, 310, or 316

**Stem Material:**

Plastic, polychlorotrifluoroethylene

**Flow Control Device:**

Bellows

**End Connection Quantity:**

2

**Filter:**

Not included

**Temperature Rating:**

150.0 degrees fahrenheit

**Product Name:**

High pressure bellows valves 3500 psig actuated

**Valve Model Number For Which Designed:**

Ss-hbs-6-c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A21100
