Body Material:

Iron, ductile

Body Style:

Tee

Media For Which Designed:

Oil and water

Face To Face Distance:

19.252 inches

Third Connection Face To Centerline Distance:

10.000 inches

End Connection Quantity:

3

Mounting Facility:

Flange

Temperature Adjustability:

Adjustable

Thermostatic Element:

Integral w/valve

Temperature Rating:

Between -95.0 degrees fahrenheit and 113.0 degrees fahrenheit

Valve Size:

6.0 inches

Product Name:

Thermostatic control valve

Special Features:

2433x manual override with nitrile seals; 2 in to 8 in, manual override; weight: 271 pounds;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
