Flow Control Device:

Poppet

Disk Loading Method:

Spring

Maximum Operating Temp:

275.00 degrees fahrenheit single response

Minimum Operating Temp:

-65.00 degrees fahrenheit

Valve Operation Method:

Automatic

Connection Type:

Threaded external tube 1st end

Valve Size:

1.00 inches

Special Features:

Buna-n seals;

Material:

Aluminum body

Style Designator:

Straight through w/baffle

Furnished Items And Quantity:

1 deflector cap

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
